

Application for support from A.L.I.T.E.

Federal regulations mandate that our grants are available to 501(c)(3) public charities. In following the vision of the A.L.I.T.E. FUND founders, *to help medically needy animals that have been released from commercial breeding facilities*, grants will be awarded to benefit these animals, at the sole discretion of our grant committee. Please review the information found at <https://aliterescuefund.org/faqs/> before filling out this form.

We will review the information as quickly as possible, as we appreciate the immediacy of the request

We regret that it is not possible to fund every request that is submitted, and we thank each of you for caring for the animals and for all of the hard work of every volunteer out there!
